

Commercial Waste & Recycling
725 Independent Road, Oakland

Hours of Operation

TRANSFER/PROCESSING FACILITY HOURS OF OPERATION

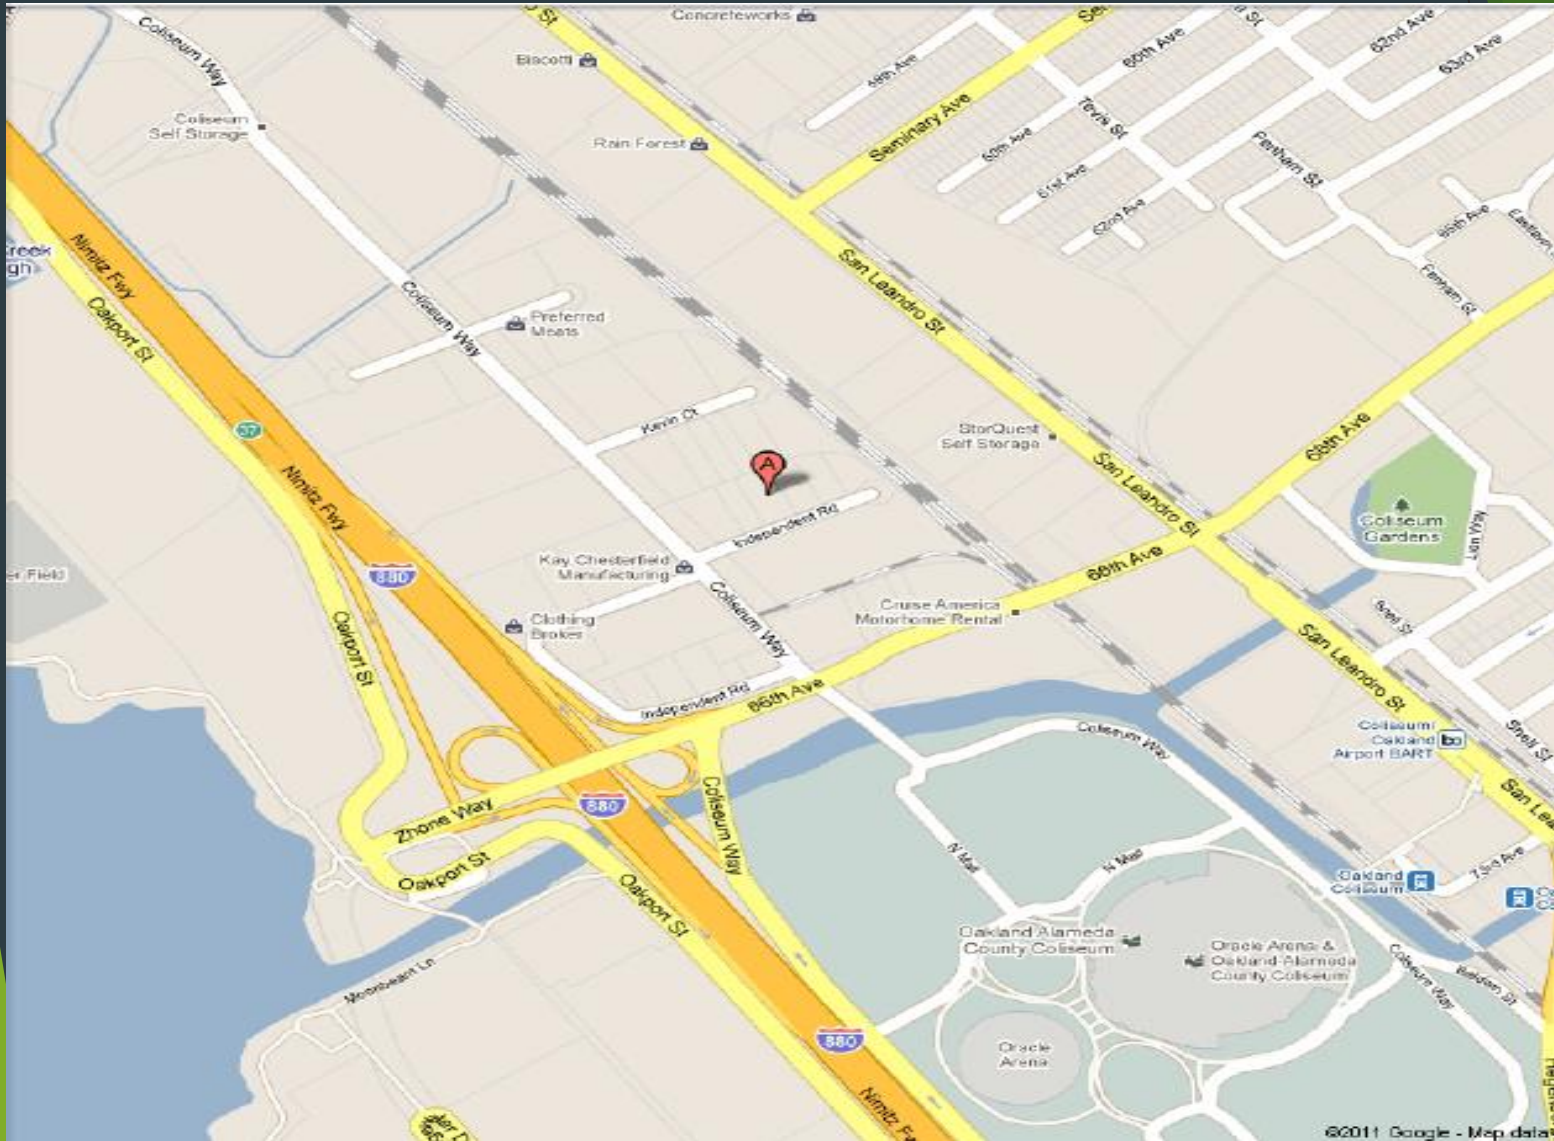

Receipt of Materials:

6 a.m.-6 p.m., Monday-Friday, Saturdays,
7:30 a.m.-4:30 p.m.

Transfer/Processing/Maintenance:

2 a.m.-11:59 p.m., Monday-Friday, Saturday-
Sunday (as needed)

SITE LOCATION

AERIAL PHOTO OF SITE

VEHICLES WEIGH IN ON SCALE

Construction/Demolition/Inert Debris Processing

Load check of customer materials

Construction/Demolition/Inert Debris Processing

Loads are floor sorted by hand and by equipment

Construction/Demolition/Inert Debris Processing

Hand Sorting of CDI Debris on the tipping floor

Construction/Demolition/Inert Debris Processing

Materials are placed into corresponding bunkers

Construction/Demolition/Inert Debris Processing

Alternative Daily Cover Feedstock (left) and Residual Pile (right)

Construction/Demolition/Inert Debris Processing

ADC Feedstock Pile

Construction/Demolition/Inert Debris Processing

ADC - Alternative Daily Cover Pile

Construction/Demolition/Inert Debris Processing

Asphalt Shingles, Sheet Rock, and other Inert Debris Bunkers

Construction/Demolition/Inert Debris Processing

Inert debris pile

Construction/Demolition/Inert Debris Processing

Foam pad materials

Construction/Demolition/Inert Debris Processing

Metals sorted into roll off bin and sold to processor. Approx 1,000 ton year

Construction/Demolition/Inert Debris Processing

Mattresses and box springs

Units processed YTD '14 - 1856
'15 - 2047

Green Waste & Wood Waste Material Processing

Processed on site and delivered off site for reuse - biofuel

Inbound Green Waste processed Sept 2014-Aug 2015 - 14,196 tons

Wood recovered from C&D Sept 2014-Aug 2015 - 2,565 tons

Small Volume Chipping & Grinding Operation

Clean Wood and Green Waste is Loaded into a slow speed shredder for size reduction

Small Volume Chipping & Grinding Operation

Crambo equipment processing wood and green material into biofuel

Small Volume Chipping & Grinding Operation

Processed Materials are Sent Out for Reuse to Facilities Such as Biofuel Power Plants

Small Volume Chipping & Grinding Operation

Biofuel is loaded into transfer trailers and then sent out to reuse facilities

Processing History

(last 12 months through 9/1)

C&D	35,789 tons
Green Waste	14,196 tons

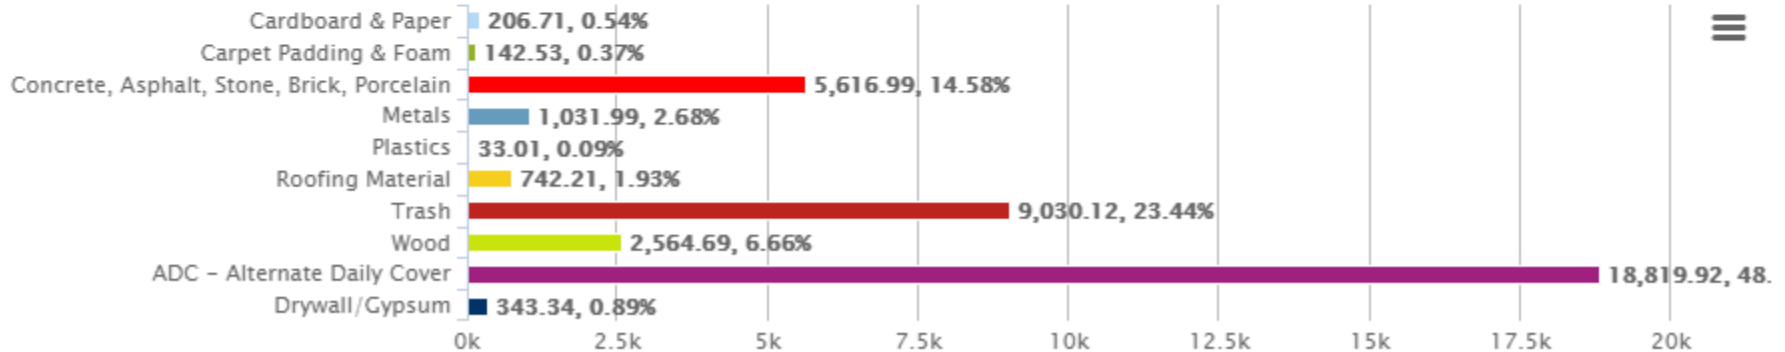

RECYCLING CERTIFICATION INSTITUTE

Facility Data for: Sep 2014 - Aug 2015

12 Month Recycling Rate Average 76.37%
