

Foodware Items Overview

Please list the current disposable items used and the proposed reusable replacements. To see a sample of how to fill out this table, please click here (we need to develop example table and post online).

Instructions

- Current Disposable Item: List the disposable items you currently use (e.g., plates, cups, utensils).
- Quantity Used Annually: Estimate how many of each item are used in a year.
- Proposed Reusable Replacement: Specify what reusable item will replace the disposable one.
- Quantity Needed: Provide the estimated quantity of the reusable items required for implementation.
